

**CS-500** Polar Cut Switch. This switch fits most Polar paper cutters built before approximately 1985. (027293) This is an aftermarket switch which is a direct replacement for most 4 pin and 5 pin cut switches. The switch and connector cable are pre-wired for a direct replacement. The face measures 127 mm (5") wide by 94mm (3.688") tall. The 5mm diameter mounting holes in the face are 103mm (4.062") apart. Also interchanges with 010053, 010054, 010055, 015105, 015098, 015237, 027293, 014755, 014222, 017325 and others.

**CS-548** Polar Cut Switch. (Equivalent to Polar 033678). This is used on most Polar cutters built after approximately 1984. Used on all Polar model S, E, ED, X and XT paper cutters. It fits the Polar 58 E, 78 E, 78 ED, 78 X, 78 XT, 92 S, 92 E, 92 ED, 92 X, 92 XT, 115 S, 115 E, 115 X, 115 XT, 137 X, 137 E, 137 ED, 137 X, 137 XT, 155 E, 155 X, 155 XT, 176 E, 176 ED, 176 X and 176 XT cutters. This is made in the USA and is a direct replacement to the original. The switch and connector cable are pre-wired for a direct replacement. The internal switch components are EATON. The face measures 126mm (4.938") wide by 75mm (2.938") tall. The 5mm mounting holes in the face are 105mm (4.125") apart.

**CS-490** Polar Cut Switch. This switch fits the Polar 55, Polar 58 E and 58 EM models. (027291) Its face plate is shorter (top to bottom) than on many of the other Polar cut switches. This is an aftermarket switch which is a direct replacement. The switch and connector cable are pre-wired. The face measures 126mm (4.938") wide by 76mm (3") tall. The 5mm diameter mounting holes are 104mm (4.125") apart.

**CS-572** Polar Cut Switch. This cut button is used on the front of the table on all sizes of Polar N, Polar N+, Polar N Pro HD and Polar N AT HD paper cutters. (Replaces Polar part # 064815 ZA3.064815). This is an aftermarket switch, made in the USA, which is a direct replacement for the original. The 4 connector pins are gold plated for long life. The switch and connector cable are pre-wired for a direct replacement. The internal switch components are Eaton M22 modular switch assembly. The face of the switch measures 126mm (4.938") wide by 75mm (2.938") tall. The 5mm diameter mounting holes in the face are 105mm (4.125") apart.

**M535** Toggle Switch for Polar Cutter Cut Line. Toggle Switch to switch from cut line light to the table light on Polar paper cutters. This is a direct replacement for the original Marquardt toggle switch #0175.0101, which is no longer available. Equivalent to the original Polar part number 210284. Rated for 15A at 250 volt.

**M627** Knob Stem for Polar Main Power Switch. Fits Polar 227128. This plastic pin fits the Eaton main power switch on all Polar cutters built after 2004. It goes between the switch body and knob.

**M629** Encoder for Backgauge, fits Polar 66, 250585A. This rotary encoder or rotary impulse generator is mounting on the control panel of the Polar 66 paper cutters. It is used to control the back gauge on these cutters. Made in Germany. Original Polar part number is 250585 or 250585A.

**M540** Micro Switch for Polar Backgauge. They Honeywell Micro Switch is for the Polar clamp top position (229321) and the backgauge front and rear limit position. Direct replacement for the original Burgess GVTFYR switches which are no longer available. Equivalent to Polar part number 211829 and 210413. This is also a direct replacement for the Miltac SAIA 209 XGK2 switch used on the hand fine adjustment on some Polar cutters. Original Polar part number 213127. Also a direct replacement for the Hartmann Series F66 switch used inside some of the very early Polar cut buttons.

**M542** Polar Cutter Backgauge Micro Switch. Honeywell Micro Switch for the Polar paper cutter clamp top position and for the backgauge front and rear limit position. This is a direct replacement for the original Burgess GVTFYR switches which are no longer available. Equivalent to the original Polar part number 211829 and 210413.
